

Checklist Before surgery

As soon as you are scheduled to have a day surgery procedure:

- Please provide a list of all medications you are currently taking
- Please provide the contact details of a responsible adult/carer who can accompany you home
- Let the day surgery staff know if you have any mobility issues and require assistance – immobilised patients need to organise ambulance transfer prior to surgery
- Remove nail polish, false eyelashes and contact lenses
- Fill in any required paperwork, including the admission form provided by your day surgery, and return as instructed
- Confirm that your private health insurer will cover your procedure and if there is any co-payment/excess that you need to pay
- If you have any questions, check with your surgeon or contact your day surgery prior to your procedure
- You cannot drive home after surgery – make sure that you have a responsible adult/carer who can help you get to and from the day surgery and accompany you for at least 24 hours after your surgery
- If you have dependents in your care, you will need to arrange for someone else to look after them for at least 24 hours after your surgery as you may still be slightly drowsy
- If you are required to fast, please ensure you understand any instructions you have been given, particularly if you have diabetes – if you are unsure, please check
- Do not smoke, take recreational drugs or drink alcohol for at least 24 hours before your surgery.

If you are unable to attend your scheduled procedure (e.g. you are ill), please notify your day surgery immediately.
